Dear Chairman Cole and Ranking Member DeLauro,

I am requesting funding for the Allegheny County Mobile Health Unit project in Fiscal Year 2027. The entity to receive funding for this project is Allegheny County, located at 436 Grant Street, Pittsburgh, PA 15219. The funding would be used to purchase and build out a mobile health unit that will operate as a traveling clinical setting delivering preventive screenings and benefit navigation services throughout the county. The project is an appropriate use of taxpayer funds because it will allow the county to deploy services efficiently based on real-time health data and community needs, bringing care directly to schools, community centers, and neighborhoods. By expanding access to preventive services, the mobile unit will help residents address health issues earlier, reduce costly emergency care, and strengthen the county's health preparedness. This investment will improve service delivery, support healthier communities, and ensure taxpayer dollars are used to prevent avoidable illness while reinforcing the region's health infrastructure.

The project has a federal nexus because the funding provided is for purposes authorized under the Public Health Service Act.

I certify that neither I nor my immediate family have any financial interest in this project.

Sincerely,

Summer L. Lee
Member of Congress
